| | | -45 | 40.795 | 44.079 | Psalms Ch 25 V 7 Letter 16 | Psalms Ch 21 V 13 Letter 28 |

The ELS reference is 45 characters between rows.
There are 1 displayed terms in the matrix.
The matrix starts at Psalms Ch 21 V 13 Letter 28 and ends at Psalms Ch 25 V 7 Letter 16.
The matrix spans 1801 characters of the surface text.
The matrix has 41 rows, is 1 columns wide and contains a total of 41 characters.

nothing   they shall be   He vanquished them burning me it went on My desire (or Woe!)

my Messiah   Jesus   a Stranger He shall be made shall be lame   The LORD

משיחי ישוע גר השית : יצלע יה

Imperf. 3m.s.Niphal Imperf. 3m.s. Qal

My desire went on burning Me. It vanquished them and they shall be nothing.
The LORD shall be lame.He shall be made a stranger- Jesus my Messiah.

This is an extension on my original central term in my Psalms 22 matrix. Can this message need explanation ? The ELS remains still within the parameters of the original matrix which centers around Psalms 22- the crucifixion Psalm. There is also the Mount formed by the words of my Messiah from the cross , "Eli, lama..", and "Mt. Moriah". The terms, "blood of God", "crucified", and "For the LORD Messiah saves" are all clustered around this long message.

This is the minimum skip (-45) for The name "Yeshua Meshiach" – "Jesus Christ", in the entire Old Testament.

This matrix continues downward with 5 letters: אביוא , or בא   אוי –
"My desire went on". The whole message reads from the bottom upward.
According to Codefinder's computation of letter frequencies, the probability for this 41 letter string occurring by itself is less than 1 in

10,000,000,000,000,000,000,000,000,000,000,000,000.

Notice the Hebrew words "Eli lama" (My God, why?) & Mt Moriah at the bottom of the matrix form a hill with 2 – 45 degree angles with 6 letters for each side and at the top of that hill , four letters are centered perfectly, closing the gap between . Those four letters are יהוה (YHWH) "Yahweh", The most holy Hebrew Name for God . That is Who was on the top of that hill, Mt. Moriah, where Abraham took his son Isaac to offer him, and told Isaac, "God will provide Himself a lamb for a burnt offering". He called that place "Jehovah Jireh" –"Jehovah shall provide", and it was said for many centuries afterward, "On the mount of Jehovah He will be provided." (Genesis 22:14).

The whole area where the temple was built was Moriah, and our LORD was crucified on that same hill "The mount of The LORD", where they looked upon "Yahweh Whom they had pierced". Here it is in word and picture form in the Psalms as a matrix, centered in Psalm 22, the Psalm of the crucifixion of The Messiah.
Coincidence ? Not very likely.
Considering the four coded sentences touching the side of this mount which speak of the suffering of "Jesus my Messiah" , at a skip of -45 (the minimum skip for "Jesus Christ" in the entire O.T.) touching a -45 degree angle side of a hill, which side is formed by the words in Hebrew of His very cry (Eli lama ?) from that very hill of suffering and sacrifice , "Moriah", whose name forms the other side of that hill, where prophecy said God would provide a lamb for a sacrifice, which words are found in that very Psalm 22 , around which the codes are formed, I would say that such a coincidence is impossible.
Wouldn't you ?
